# SUBJECT INDEX TO VOLUME 134

ABDOMEN
cancer; carcinoma, percutaneous double catheter infusion for treatment of, 403
wall of, wounds, experimental, healing strength of rectus and midline, 387
Adrenal glands
transplantation, experimental, hypercalcemic and hypermagnesemic perfusion of, 303
Arthritis
rheumatoid, total hip replacement in, 967

BILE
flow, experimental, effect of hepatic venous obstruction on, 89
human, concentration of insulin in, 815
lithogenous, relationship of bile acid pool size to formation of, in male Indians of Southwest, 473
in reflux esophagitis, experimental, significance of, 419
Biliary tract
ducts, experimental, obstruction, segmental of, 915
strictures, repair of, modified Y-tube splint in, 665
Blood
bacteremia, experimental, gram-negative, fibrin thrombi in pulmonary microcirculation of dogs with, 433
experimental, gram-negative, relationship of plasma catecholamines to serum triglycerides in, 795
coagulation, intravascular, experimental, role of in endotoxin shock, 73
dialysis, chronic, modified saphenous vein loop fistula in thigh for, 835
elements, of Crohn's disease, 643
flow, renal, experimental, effects of glucagon in hypovolemia, 937
hemodynamics, experimental, renal, and functional effects of external counterpressure, 253
of femorofemoral shunt, 629
plasma, catecholamines, experimental relationship to serum triglycerides in gram-negative bacteremia, 795
sepsis, experimental, depressed cardiac performance in, 759
serum, triglycerides, experimental, in gram-negative bacteremia, relationship of plasma catecholamines to, 795
transfusion, exchange, technique, for hepatic coma, 658
viscosity, in combat casualties, 293
Blood pressure
high, experimental, and progressive renal artery occlusion, 981
Blood vessels
arteries, carotid, fibromuscular disease of, 57
femorotibial, bypass, for salvage of ischemic lower extremity, 771
monitoring of neonates, simple method for, 489
peripheral insufficiency, of lower extremities unassociated with organic occlusions, 963
popliteal, injuries, problems in management, 921
renal, experimental, hemodynamics, and functional effects of external counterpressure, 253
occlusion, bilateral, experimental, persistent hypertension and, 981
disease, fibromuscular, of carotid artery, 57
grafts, femorofemoral shunt, hemodynamics of, 629
intravasation, experimental, of fat from bone marrow cavity, 931
shunts, femorofemoral, hemodynamics of, 629
surgery, femorofemoral shunt, hemodynamics of, 629
shunt, results of, for bleeding varices due to intrahepatic obstruction, 47
thrombi, fibrin, experimental, in pulmonary microcirculation of dogs with gram-negative bacteremia, 433
trauma, major, special clamp for, 669
veins, bleeding, varices, due to intrahepatic obstruction, results of shunt operation for, 47
hepatic, obstruction, experimental, effect on flow of bile, 89
of lower part of leg after tibial fractures, 974
method of conservation in surgical cutdown, 315
monitoring of neonates, simple method for, 489
noncontinuous alimentation, implantable subcutaneous feeding chamber for, 491
saphenous, modified loop-fistula, in thigh for chronic hemodialysis, 835
vena cava, percutaneous supraclavicular superior cannulation, 839
Bone
cranium, surgery, regional, for recurrent tumors with delayed reconstruction, 437
femur, fracture, conservative treatment in same limb, 985
healing, experimental, oxygen tensions in, 746
marrow, cavity, experimental, effect of pressure on intravasation of fat from, 931
orbital, surgery, regional, for recurrent tumors with delayed reconstruction, 437
tibia, fracture, conservative treatment in same limb, 985
fractures, veins of lower part of leg after, 974
Book Shelf
Body and destiny of Napoleon, 106
Patient and physician in eighteenth century England, 844
Brain
cerebrum, thalamus, surgery, bilateral cingulumotomy with, or mesencephalic, 958
cortex, surface pH, experimental, for determining regional perfusion of, 799
mesencephalon, surgery, bilateral cingulumotomy with thalamotomy for pain, 958
perfusion, regional, experimental, cortical surface pH for determining, 799
surgery, bilateral cingulumotomy with thalamotomy or mesencephalic tractotomy for pain, 958
Breast
cancer; carcinoma, diagnosis by aspiration biopsy, 837
treatment, results of based on pathologic staging, 211
fibrocystic disease of, not premalignant, 803
lesions, small, roentgenographic localization by spot method, 572
roentgenography, for localization of small breast lesions by spot method, 572
tumors, fibrocystic disease of, not premalignant, 803
Bronchus
tumors, adenoma, 605

CANCER
abdomen, carcinoma, percutaneous double catheter infusion for treatment of, 403
adenocarcinoma, of colon, family study of, and multiple primary, 781
breast, carcinoma, diagnosis of by aspiration biopsy, 837
carcinoma, treatment, results of based on pathologic staging, 211
chemotherapy, in treatment of germ cell tumors containing choriocarcinoma, 61
choriocarcinoma, chemotherapy in treatment of germ cell tumors containing, 61
classification, results of treatment of carcinoma of breast based on, 211

colon, adenocarcinoma, family study of, and multiple primary, 781
lungs, carcinoma, metastasis, solitary, surgical management of, 479
carcinoma, tracheal sleeve pneumonectomy for, 231
metastasis, pulmonary, solitary, surgical management of, 479
reliability of liver scans and function tests in detecting, 463
ovary, carcinoma, primary, multiple malignant tumors associated with, 244
pancreas, carcinoma, associated with pancreatic cyst, 44
primary, multiple, family study of adenocarcinoma of colon and, 781
rectum, carcinoma, anterior resection for, acute septic complications of, 767
thyroid, carcinoma, in children, 595
carcinoma, experimental, deoxyribonucleic acid measurements on rat, 640
treatment, of carcinoma of breast based on pathologic staging, 211
vagina, carcinoma, in situ of, after hysterectomy, 652

Candida
disseminated, in surgical patients, 819

Collective Review
Carcinoma of male breast, 1011
Landmarks in clinical renal transplantation, 323
Law and surgeon, 851
Obstructions of vena cava, 115
Premalignancy of polyps of colon, 499
Treatment or prevention of pulmonary cellular damage with pharmacologic doses of corticosteroid, 675

Cysts
pancreatic, carcinoma associated with, 44

DRUGS
addict, surgical procedures upon, 947
amphotericin B, experimental, use of mannitol to reduce nephrotoxicity of, 241
betapropiolactone, experimental, sterilized heterograft, aortic valve transportation with, 409
cephaloridine, in surgical infections, 83
cytostatic, ovarian lesions due to, during treatment of Hodgkin's disease, 826
glucagon, experimental, renal effects of during hypovolemia, 937
heparin, experimental, effects on wound healing, 22
kanamycin sulfate, absorption and excretion of intraperitoneally administered, 995
mannitol, experimental, to reduce nephrotoxicity of amphotericin B, 241
secretin, experimental, effect on fed pattern of gastric and duodenal contractile activity, 807

EDITORIALS
Attitude, technique, and chance in use of pancreaticoduodenectomy, 833
Donor and his physician, 999
Is there an increased risk of metastasis?, 1000
Knowledge and skills of electrosurgery, 484
Mammography in its proper perspective, 97

Transfer of gram-negative bacterial antibiotic resistance, 655

Embolism
air, detection during cardiopulmonary bypass, 977

Esophagus
achalasia, advanced, fundic patch operation in treatment of, 617
atresia, operative management with muscular continuity, 1001
inflammation, experimental, reflux, significance of, 419
surgery, fundic patch operation, in treatment of advanced achalasia of, 617

Extremities
lower, ischemic, femorotibial bypass for salvage of, 771
peripheral artery insufficiency of, unassociated with organic occlusions, 963

FRACTURES
complications, tibial, veins of lower part of leg after, 974
treatment, conservative, of femur and tibia, in same limb, 985

GALLBLADDER
calculus, postcholecystectomy, 249

Gangrene
gas, treatment of with hyperbaric oxygen, 579

Gastrointestinal tract
stomach, stress ulcers, post-traumatic renal insufficiency, 790
ulcer, experimental, clinical definition of, 563

Geriatrics
surgical procedures in elderly, 221

HEART
aortic valves, transplantation, experimental, with beta-propiolactone-sterilized heterograft, 409
arrest, anoxic, experimental, intramyocardial oxygen and carbon dioxide pressures in, 67
blood supply, cardiopulmonary bypass, detection of microemboli during, 977
physiology, cardiorespiratory patterns of postoperative patients, 810
experimental, depressed performance of in sepsis, 759
tumors, myxoma, dysfunction of liver in, 288
valve, mitral, technique for prosthetic replacement, 485

Hodgkin's disease
treatment of, ovarian lesions due to cytostatic agents during, 826

IMMUNITY
cellular, experimental, development of, to tumor cells, 739

Infants
newborn, simple method for arterial and venous monitoring of, 489
surgery, transverse colostomy in, 101

Infarction
intestine, massive, and of liver, and systemic scleroderma, 10

Infection
surgical, cephaloridine therapy in, 83
disseminated candidiasis in, 819

Instruments and apparatus
clamp, for major vascular trauma, 669
implantable subcutaneous feeding chamber, for noncontinuous central venous alimentation, 491
intestinal clamp, technique, for low anterior resection of rectum, 319
nasogastric tube, circle tie to prevent removal of by patient, 317
pump, implantable infusion, experimental, design and initial testing of, 51
respirator, therapy, use of pulmonary compliance as guide to, 291
Y-tube splint, in repair of biliary strictures, 665

Insulin
concentration, experimental, in pancreatic juice, 589
in human bile, 815

Intestines
acidity, experimental, relationship between surface pH and $pCO_2$ and vascularity and viability of, 787
blood vessels, experimental, viability of, relationship between surface pH and $pCO_2$ and, 787
colon, anastomosis, leakage, pneumoscrotum as sign of, 1005
anterior resection of, pneumoscrotum after, 1005
cancer; carcinoma, adenocarcinoma, family study of, and multiple primary, 781
disease, diverticulities of, fistulas complicating, 625
experimental, anastomotic strength, effects of protein depletion on, 15
fistula, complicating diverticulitis of, 625
of malignant origin, 829
left, surgery, elective, reconsideration of, 593
transverse, surgery, in infant, 101

disease, Crohn's, hematologic features of, 643
Crohn's, incidence of recurrence in, 467
duodenum, experimental, contractile activity, effect of secretin on fed pattern of, 807
surgery, catheter, duodenostomy, and total gastrectomy, 102
ulcer, peptic, of posterior wall of stomach and, with retroperitoneal leak, 425
endotoxin, experimental, role in death from peritonitis, 953
epithelium, effect of resection of small intestine upon fine structure of, 992
ileum, conduit urine, bacteriology of, 78
infarction, massive, and systemic scleroderma, 10
inflammation, incidence of recurrence, 467
jejunum, fluid, experimental, effect of prolonged hypovolemic shock on, 399
sodium transport, experimental, effect of, 399
surgery, gastrojejunostomy, efferent loop syndrome, 777
technique, jejunostomy, 663
rectum, cancer; carcinoma, acute septic complications of anterior resection for, 767
hemorrhoids, surgery, modification of Whitehead method, 103
surgery, sutureless, 842
surgery, anterior resection, acute septic complications of, for carcinoma of rectum, 767
intestinal clamp for low anterior resection of, 319
small, resection, effect on fine structure of intestinal epithelium, 992
surgery, jejunostomy, modified technique, 663
reconsideration of colostomy in elective left colon, 593
sutureless hemorrhoidectomy, 842

Isotopes
radioactivity, reliability of liver scans and function tests in detecting metastases, 463
spot method, for localization of small breast lesions, 572
scintiscan, diagnosis, of splenic hematoma, 430
technique, spot method, roentgenographic localization of small breast lesions, 572

Joints
hip, total replacement in rheumatoid arthritis, 967

Kidneys
arteries, experimental, bilateral occlusion, persistent hypertension and, 981
experimental, hemodynamic and functional effects of external counterpressure, 253
function, insufficiency, posttraumatic, stress ulcers in, 790
surgery, simultaneous bilateral nephrectomy from posterior approach, 764
toxicity, experimental, of amphotericin B, use of mannitol to reduce, 241
transplantation, human experience in, 394
ureteral implantation in, 494

Liver
bile, flow, experimental, effect of hepatic venous obstruction on, 89
biopsy, open, increased mortality rate of, in alcoholic hepatitis, 600
coma, hepatic, improved technique of exchange transfusion for, 658
disease, hepatitis, alcoholic, increased mortality rate of open liver biopsy in, 600
function, dysfunction in cardiac myxoma, 288
tests, reliability of, and of scans in detecting metastases, 463
infarction, massive, and systemic scleroderma, 10
injury, patterns of, after fatal blunt trauma, 39
treatment of, 298
obstruction, results of shunt operation for bleeding varices, 47
scans, in detecting metastases, 463
tumors, adenomas, clinical experience with, 415
study of vascularity, 27

Lungs
blood supply, detection of microemboli during cardiopulmonary bypass, 977
microcirculation, experimental, fibrin thrombi in dogs with gram-negative bacteremia, 433
cancer; carcinoma, advanced, tracheal sleeve pneumonectomy for, 231
solitary pulmonary metastasis, surgical management of, 479
function, cardiorespiratory patterns of postoperative patients, 810
compliance, use as guide to respirator therapy, 291
structure, changes, experimental, after hemorrhagic shock, 3
surgery, for advanced carcinoma of, 231
in management of solitary pulmonary metastasis, 479

Lymphatic system
lymph nodes, popliteal, roentgenography, study of, 227

Metabolism
protein, depletion, experimental, effect on colonic anastomoses, 15

Mortality
rate, increased, of open liver biopsy in alcoholic hepatitis, 600

Nerves
cranial, vagus, experimental, vagotomy, temporal relationship of gastric acid secretion to meat meal before and after, 307
vagus, surgery, completeness of, and intraoperative gastric pH, 35

Nutrition
venous, noncontinuous central, implantable subcutaneous feeding chamber for, 491

Ovary
cancer; carcinoma, primary, multiple malignant tumors associated with, 244
gonadal dysgenesis, pelvic pneumography in adults, 751
lesions, due to cytostatic agents during treatment of Hodgkin's disease, 826

Oxygen
hyperbaric, for treatment of gas gangrene, 579
tensions, experimental, in healing bone, 746

Pancreas
cancer; carcinoma, associated with pancreatic cyst, 44
cyst, carcinoma associated with, 44
inflammation, necrotizing, retroperitoneal extension of, 927
juice, experimental, concentration of insulin in, 589
surgery, modified pancreaticojejunal anastomosis following pancreatoduodenectomy, 1003

Pathology
staging, results of treatment of carcinoma of breast based on, 211

Pediatrics
cancer; carcinoma, of thyroid in, 595

Pelvis
roentgenography, in gonadal dysgenesis in adults, 751

Peritoneum
extension of necrotizing pancreatitis behind, 927
inflammation, experimental, death, role of intraintestinal endotoxin in, 953
irrigation, experimental, study of consequences of, 575

Prosthesis
mitral valve, technique for replacement with, 485

Roentgen rays
diagnosis, in gonadal dysgenesis in adults, 751
lymphangiography, study of popliteal lymph nodes, 227
pneumography, pelvic, in adult gonadal dysgenesis, 751

Scleroderma
systemic, and massive infarction of intestine and liver, 10

Scrotum
air, sign of anastomotic leakage, 1005

Shock
endotoxin, experimental, intravascular coagulation in, 73
hemorrhagic, experimental, morphologic changes in primate lung after, 3
hypovolemic, experimental, prolonged, effect on jejunal fluid and sodium transport, 399
Sinuses
pilonidal, excision and primary closure, 448
Spine
cervical, disc degeneration, anterior interbody fusion for, 755
Spleen
excision, for trauma in childhood, 94
hematoma, scintiscan diagnosis of, 430
injuries, splenectomy for, in childhood, 94
Stomach
acidity, intraoperative, and completeness of vagotomy, 35
contractile activity, experimental, effect of secretin on fed pattern of, 807
excision, subtotal, tuberculosis following, 586
total, and catheter duodenostomy, 102
fistula, of malignant origin, 829
hyperacidity, intestinal control of, 637
secretion, experimental, temporal relation of to meat meal before and after vagotomy, 307
surgery, gastrojejunostomy, efferent loop syndrome, 777
ulcer, influence of site on natural history of, 470
peptic, of posterior wall and duodenum with retroperitoneal leak, 425
Surgery
anterior interbody fusion, for severe cervical disc degeneration, 755
cardiac, detection of microemboli during cardiopulmonary bypass, 977
experimental, anoxic arrest, intramyocardial oxygen and carbon dioxide pressures during, 67
choledocholithiasis, postcholecystectomy, 249
experimental, aortic valve transplantation with betapropiolactone-sterilized heterograft, 409
brain, surface pH for determining regional perfusion, 799
cardiac arrest, anoxic, intramyocardial oxygen and carbon dioxide pressures during, 67
clinical definition of stress ulceration, 563
colonic anastomosis, strength, effects of protein depletion on, 15
concentration of insulin in pancreatic juice, 589
deoxyribonucleic acid measurements on rat thyroid carcinoma, 640
depressed cardiac performance in sepsis, 759
dimensions of reactive zone of wounds delineated by shifts of water between major fluid compartments, 942
effects of heparin on wound healing, 22
of pressure on intravasation of fat from bone marrow cavity, 931
of prolonged hypovolemic shock of jejunal fluid and sodium transport, 399
of secretin on fed pattern of gastric and duodenal contractile activity, 807
endotoxin shock, intravascular coagulation in, 73
fibrin thrombi in pulmonary microcirculation of dogs with gram-negative bacteremia, 433
healing strength of rectus and midline wounds of abdominal wall corrected for square area, 387
hepatic venous obstruction, effect of on flow of bile, 89
hypercalcemic and hypermagnesemic perfusion of isolated autotransplanted adrenal glands, 303
morphologic changes in primate lung after hemorrhagic shock, 3
oxygen tensions in healing bone, 746
relationship between surface pH and $pCO_2$ and vascularity and viability of intestine, 787
renal effects of glucagon during hypovolemia, 937
hemodynamic and functional effects of external counterpressure, 253
role of intraintestinal endotoxin in death from peritonitis, 953
for segmental obstruction of bile duct, 915
significance of bile in reflux esophagitis, 419
study of consequences of intraperitoneal irrigation, 575
use of mannitol to reduce nephrotoxicity of amphotericin B, 241
water content of different incised tissues in rabbits, 451
infection, cephaloridine therapy in, 83
disseminated candida in, 819
morbidity and mortality, reconsideration of colostomy in elective left colon, 593
surgical management of solitary pulmonary metastasis, 479
postoperative complications, acute septic, of anterior resection for carcinoma of rectum, 767
of narcotic addition, 237
pneumoscrotum after anterior resection of colon, 1005
use of lung compliance as guide to respirator therapy, 291
postoperative reactions, demand analgesia, 647
effect of resection of small intestine upon fine structure of intestinal epithelium, 992
postoperative results, of treatment for hyperthyroidism, 218
postoperative state, cardiorespiratory patterns of surviving and nonsurviving patients, 810
preoperative evaluation, on drug addict, 947
reconstructive, delayed, regional cranio-orbital resection for recurrent tumors with, 437
technique, catheter duodenostomy and total gastrectomy, 102
circle tie to prevent removal of nasogastric tube, 317
conservation of veins in surgical cutdown, 315
cranio-orbital resection, regional, for recurrent tumors with delayed reconstruction, 437
excision and primary closure of pilonidal sinus, 448
femorotibial bypass for salvage of ischemic extremity, 771
fundic patch operation, in treatment of advanced achalasia of esophagus, 617
hemorrhoidectomy, sutureless, 842
improved, of exchange transfusion for hepatic coma, 658
jejunostomy, 663
low anterior resection, intestinal clamp for, 319
management of esophageal atresia with muscular continuity, 1001
modified pancreaticojejunal anastomosis following pancreatoduodenectomy, 1003
saphenous vein loop-fistula in thigh for chronic hemodialysis, 835
percutaneous supraclavicular superior vena caval cannulation, 839
for prosthetic replacement of mitral valve, 485
simple, for arterial and venous monitoring of neonates, 489
simultaneous bilateral nephrectomy from posterior approach, 764
tracheal sleeve pneumonectomy for advanced carcinoma of lung, 231
transverse colostomy in infant, 101
ureteral implantation in renal transplantation, 494
vagotomy, intraoperative gastric pH and completeness of, 35
Whitehead hemorrhoidectomy, modification of, 103
vagotomy, experimental, temporal relationship of gastric acid secretion to meat meal before and after, 307
Surgical pros and cons, 657

THYROID
cancer; carcinoma, in children, 595

experimental, deoxyribonucleic acid measurements on rat, 640
disease, results of surgical treatment for, 218
Tissue
incised, experimental, water content of in rabbits, 451
Transplants
adrenal glands, isolated, experimental, hypercalcemic and hypermagnesemic perfusion of, 303
aortic valve, experimental, with betapropiolactone-sterilized heterograft, 409
kidney, human experience with, 394
ureteral implantation in, 494
Trauma
arteries, popliteal, problems in management, 921
combat, renal insufficiency after, stress ulcers in, 790
fatal, blunt, patterns of liver injury after, 39
liver, treatment of, 298
spleen, in childhood, excision for, 94
vascular, major, special clamp for, 669
Tuberculosis
after subtotal gastrectomy, 586
Tumors
adenoma, bronchial, 605
hepatic, clinical experience with, 415
cells, experimental, development of cellular immunity to, 739
fibroma, cystic, of breast is not premalignant, 803
germ cell, containing choriocarcinoma, chemotherapy in treatment of, 61
hematoma, splenic, scintiscan diagnosis of, 430
liver, vascularity of, 27
malignant, multiple, associated with primary carcinoma of ovary, 244
myxoma, cardiac, dysfunction of liver in, 288
recurrent, regional cranio-orbital resection for, with delayed reconstruction, 437

Ureters
implantation, in renal transplantation, 494
ureterocele, ectopic and simple, in infancy and childhood, 611
Urinary tract
ileal conduit, bacteriology of, 78
Uterus
cervix, excision, carcinoma in situ of vagina after, 652

Vagina
cancer; carcinoma, in situ of, after hysterectomy, 652

Water
shifts, experimental, between major fluid compartments, dimensions of reactive zone of wounds delineated by, 942
What's New in Surgery
259–287
Wounds
healing, experimental, effects of heparin on, 22
experimental, strength of rectus and midline of abdominal wall, 387
water content of different incised tissues in rabbits, 451
reactive zone, experimental, dimensions of, delineated by shifts of water between major fluid compartments, 942
war, blood viscosity in combat, 293

Cartilage
articular, damage from cortisone injection, 1056
chondrocalcinosis, 547
enchondromatosis, 369
meniscus, cysts of, 185
surgery, arthrosis after, 186
Catheter
intravenous, complications from, 375
Chemotherapy
actinomycin D, for malignant trophoblastic tumors, 535
for Paget's disease of bone, 203
for carcinoma of bronchus, 382
for circulating cancer cells, 910

cyclophosphamide, for arm lymphedema, from carcinoma of breast, 518
for carcinoma of breast, 383
for genital tract tumors, and serum immunoglobulin level, 205
fluorouracil, for cancer, 203
for carcinoma of breast, 383
for carcinoma of head and neck, 200
intestinal lesions from, dietary management of, 1071
dietary management of, experimental, 1071
L-asparaginase, for neoplasms, in children, 557
for metastatic malignant melanoma, 382
silver sulfadiazine, for burns, 553
for solid tumors, 203
thiotepa, for carcinoma of bladder, 177
trimethoprim, for burns, 553
for tumor of breast, 910
uracil chlorethamine, for lymphoma, 733
Chromosomes
in carcinoma of bladder, 176
in spontaneous abortion, 167
Coma
irreversible, and brain death, 338
Cranium
anterior fontanelle, subgaleal cysts, 138
craniosynostosis, and hydrocephalus, 691
excision, bifrontal, for cerebral edema, 515
face, orofacial dyskinesia, 140
Cysts
adrenal glands, diagnosis, 179
hydatid, lungs, surgery, 696
of meniscus, 185
renal, and arterial hypertension, 366

Diabetes
corneal degeneration, experimental, 131
after excision of insulin tumors of pancreas, 531
insulin antagonist from pituitary gland, 203
juvenile, 210
maternal, and newborns, 541
and pregnancy, 167
retinopathy, and chronic pancreatitis, 865
hypophysectomy for, endocrine changes from, 138
Diaphragm
hernia, congenital, 700
strangulating, 526
malfunction, in newborns, 152
singultus, cause and treatment, 700
Disease
thrombocytopenic purpura, remission after hemodialysis, 1061
Drugs
acetylcholine, and brain injuries, experimental, 1029
acetylsalicylic acid, and arteriosclerosis and thromboembolism, in elderly, 188
antiepileptic, blood levels of, 337
antihistaminic, in liver transplantation, experimental, 913
azathioprine, for Crohn's disease, 1039
calcium heparin, for venous thrombosis, 902
calcitonin, for osteoporosis, 1057
cholinergic, and motility of spermatozoa, 714
clomiphene, for defective spermatogenesis, 364
cyclophosphamide, and transplantation, 385
dextran, with mannitol, for hypertension, in late pregnancy, 707
for thrombosis, in fractures of femoral neck, 371
diazepam, for withdrawal syndrome, in newborns, 1052
Dicumarol®, for thrombosis, in fractures of femoral neck, 371
dimethylhydrazine, induction of cancer, in intestines, experimental, 204
diphenylhydantoin, for maternal convulsions, and newborn, 171
placental transfer and neonatal elimination of, 171
plasma protein binding of, in hyperbilirubinemic infants, 542
heparin, for calculi in common bile duct, 161
for deep vein thrombosis, 901, 1065
in femoral neck fractures, 1056
for metastasis, experimental, 204
for pulmonary embolism, 345
heroin, addiction, in newborns, 711
levodopa, for Parkinson's disease, 138
low molecular silicon polymers, chemical-biologic properties, 560
lysergic acid diethylamide, effect on chromosomes of offspring, 708
mafenide acetate, behavior of, 903
magnesium sulfate, for anoxia, in newborns, 171
methadone, addiction, in newborns, 711
monoamine oxidase inhibitor, for narcolepsy, 737
narcotics, addiction, in newborns, 710
prednisolone, use in transplantation rejection, 209
prostaglandin, induction of labor, 1050
Ductus arteriosus
closure, with mechanical sutures, 872

tumors, malignant, 150
radiation therapy, 200
varix, bleeding, Sengstaken-Blakemore tube for, 699
from portal hypertension, treatment, 533
Extremities
acromegaly, neurosurgical problems in, 135
edema, lymphangiography and phlebography, 724
fractures, multiple, 182
lower, anterior and lateral compartment syndrome, chronic, 721
arteriosclerotic occlusion in, 900
length discrepancy, rotation plasty for, 1058
surgery, 545

lymph circulation, after phlebitis, 724
restless leg syndrome, after gastric surgery, 528
venous thrombosis, phlebography, 189
plethysmography and phlebography, 723
transplantation, after avulsion, 184
trauma, arterial, 723
upper, veins, obstruction, phlebography and plethysmography in, 723

Eyes
atrophy, after Caldwell-Luc procedure, 335
cataracts, and hypoglycemia, in infants, 865
surgery, 131
droperidol, 193
incisions, narrow and stepped, 689
choroid, lesions, roentgenography, 132
cornea, degeneration, with diabetes, experimental, 131
damage, in battered baby syndrome, 865
ectopia lentis, surgery, 132
enucleation, causes of, 335
exophthalmos, pneumo-orbitotomography, 131
glaucoma, implant, effect of removing, 335
narrow angle, and iridocycloretraction, 335

lid, lacerations, occult intraocular perforations from, 688
upper, blepharoptosis, surgery, 688
muscles, ophthalmoplegia, internuclear, 689
orbit, floor of, fractures, repair, and vision loss, 865
venous malformations, 688
perforation, from brow and lid lacerations, 688
pupil, dilation, and age, 1025
retina, Coats's disease, electron microscopy, 131
detached, surgery, 865
diabetic retinopathy, and chronic pancreatitis, 865
fundus changes in, 336
hypophysectomy for, endocrine changes from, 138
lesions, roentgenography, 132
retinoscopy and roentgenography, 1025
subretinal fluid, study of, 688
tumors, retinoblastoma, 131, 335
sclera, buckling, tissue adhesive for, 336
sutureless buckling materials, hydrogels, 688
vitreous, loss, prevention of, 688

Face
trauma, treatment, 139

Fallopian tubes
contraction, and prostaglandin, 884
excision, for sterilization, 883
infertility, surgery, 536
ligation, vaginal, 536

Fertility
females, and endometriosis, surgery, 535
after kidney transplantation, 562
oviduct, surgery, 536
ovulation induction, 164
sterilization, ligation, 536
salpingectomy, 883

transvaginal, 906
males, infertility, causes of, 713

Fever
hyperpyrexia, malignant, 193
malignant, and anesthesia, 728

Fibrosis
cystic, 209
and intussusception, 351

Foot
deformities, clubfoot, surgery, 371
fore part, adduction of, metatarsal osteotomy for, 548

Fractures
clavicle, in newborns, 1051
femur, 370, 372, 547
in elderly, 372
intramedullary nailing, 369
malreduction and avascular necrosis in, 371
neck, in children, 897
heparin in, 1056
mechanical problems, 370
after pelvic radiation therapy, 897
prosthesis after, 893
thrombosis in, dextran and Dicumarol® for, 371
pertrochanteric, osteosynthesis, 371
shaft, internal fixation, 373
subcapital, prosthesis for, 895
surgery, 720
forearm, splintage treatment of, 1057
hip, death after, 545
humerus, shaft, 895
larynx, experimental, treatment, 1026
metacarpals, dislocated, treatment, 898
olecranon, 1055, 1056
internal fixation of, 549
phalanges, dislocated, treatment, 898
radius, head, 372
spine, cervical, 896
tibia, shaft, treatment, 372, 1059
treatment, osteosynthesis, by compression plating, 897
union, periosteum in, 373

Gallbladder
calculus, removal, 162
cancer; carcinoma, surgery, 1043
excision, and diameter of common bile duct, 1043
inflammation, acalculous, and burns, 1044
acute, management of, 531
lesions, intramural, 881
neoplasms, and cholelithiasis, 161
roentgenography, intravenous, renal failure after, 555

Gastrointestinal tract
appendix, excision, 156
inflammation, during pregnancy, 351
cancer, and carcinoembryonic antigen, 204
celiac disease, in children, 876
diagnosis, 1039
complications, after kidney transplantation, 912
postoperative, and kidney transplantation, 735
from radiation therapy, 199
diarrhea, and malignant disease, 703
hemorrhage, surgery, 705
motility, in pediatric surgery, 878
rupture, and blunt trauma of abdomen, 158
steatorrhea, celiac disease, and Crohn's disease, and antibodies to reticulin, 880
tumors, fetal antigens, and diagnosis, 205
ulcers, stress, with bleeding or perforation, 875
upper, hemorrhage, roentgenography, 555

Genital tract
female, cancer; carcinoma, 141
infections, herpes simplex, and carcinoma of cervix uteri, 358
mycoplasma in, antibiotic therapy, 356
infections, herpes, 358
tumors, cyclophosphamide for, and serum immunoglobulin level, 205

Geriatrics
surgery, abdominal, 1071
emergency, 877

Gynecology
hormone determination, 163
laparoscopy, complications of, 163
sexual assault, 537, 886

Hand
burns, 186, 1066
Dupuytren's contracture, fasciectomy for, 721
and palmar fascia, 722
fingers, mallet, 1060
injuries, skin covers for, 341
lymph drainage, to axillary lymph nodes, 190
tendon, surgery, silicone underlays and pulleys in, 722
thumb, malformation, congenital, 907
trauma, flexor tendon reconstruction in, 550
tumors, 1060

Heart
aneurysms, false, by intrapericardial rupture, 524
atrium, septostomy, for transposition of great vessels, 148
defects, atrial septal, 870
atrial septal, surgery, 874
correction, with extracorporeal circulation, in infants, 348
tetralogy of Fallot, angiocardiography, 198
correction, 145, 149, 1035

ventricular septal, correction, in children, 347
correction, with extracorporeal circulation, in infants, 523
surgical closure, 346
disease, congenital, cyanotic, cavopulmonary anastomosis for, 873
congenital, cyanotic, hypoplenia in, 523
and delayed skeletal growth, 1059
in fetus, obstetric complications with, 1048
cyanotic, roentgenography of chest in, in newborns, 379
vena cava-to-pulmonary artery shunt for, 1036
diagnosis of, 146
and pregnancy, 887
anesthesia in, 729
emboli, catheter, removal with endoscopic forceps, 148
endocardium, inflammation, acute aortic regurgitation from, aortic valve replacement for, 698
inflammation, bacterial, aortic valve replacement in, 146
fungal, postoperative, 144
failure, congestive, coronary artery bypass grafts for, 1035
and coronary artery disease, 873
hypertensive, postpartum, 540
herniation, after pneumonectomy, 523
infections, and burns, 1067
interventricular septum, intact, with lung atresia, 521
lymph flow in, measurement of, 724
muscle, ischemia, thermography, intraoperative, 145
myocardium, contractility, after coronary bypass grafts, 871
